PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 1+ years of experience developing scalable, responsive web applications using React.js, Next.js, Node.js, PHP, and MongoDB. Hands-on experience in RESTful API development, WordPress plugin customization, AWS cloud deployment, and Agile SDLC. Proven ability to deliver production-ready solutions — reduced manual data entry by 40% and cut AWS cloud costs by 15%.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js
Backend:	Node.js, Express.js, PHP, WordPress
APIs & Integration:	RESTful APIs, API Integration, Postman
Databases:	MongoDB, MySQL
Cloud & DevOps:	AWS (EC2, S3), Oracle Cloud Infrastructure (OCI), CI/CD Pipelines
Tools & Platforms:	Git, GitHub, VS Code, XAMPP
Methodologies:	Agile, Scrum, SDLC

PROFESSIONAL EXPERIENCE

Associate Software Engineer NearTekPod, Tiruchirappalli, Tamil Nadu, India | Feb 2024 – Mar 2025

- Developed a custom WordPress Form Builder plugin — designed plugin architecture, enqueued scripts/styles, registered custom post types, and implemented AJAX-based form save/fetch operations; reduced manual data entry by 40%.
- Rendered form submissions in the WordPress admin panel using jQuery Data Tables with pagination, search, and improving data review speed for the operations team.
- Engineered a warranty and claim management platform on WordPress & PHP, deployed on AWS EC2 with automated AMI recycling, cut monthly cloud infrastructure costs by 15%.
- Built and optimized 2 internal low-code platform applications using Next.js, improving team operational workflow efficiency by 25%.
- Developed a Leave Tracker web app in React.js featuring approve/reject workflows, role-based access control, and real-time state management using React Hooks.
- Implemented CRUD operations with RESTful APIs across MERN stack projects; used Postman for API testing and GitHub for version control in Agile sprints.

PROJECTS

WordPress Form Builder Plugin [PHP, WordPress, jQuery, AJAX, MySQL]

Production plugin with drag-and-drop form creation, custom post types, AJAX submission, and jQuery Data Tables admin view. Reduced manual entry by 40%.

Warranty & Claims Management Platform [PHP, WordPress, AWS EC2, S3]

Platform for product warranty registration and claim tracking. Deployed on AWS EC2 with automated AMI recycling script that saved 15% on monthly cloud costs.

Leave Tracker App [React.js, Node.js, MongoDB, REST API]

Leave management app with role-based login, leave request submission, manager approve/reject workflow, and email notifications. Built using the MERN stack.

EDUCATION

Bachelor of Engineering — Electronics & Communication Engineering

K. Ramakrishnan College of Engineering (KRCE), Anna University, Chennai | 2019 – 2023

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) Foundations Associate — Oracle, 2024
- MERN Stack Developer Certification — Simplilearn, 2024
- AWS Cloud Basics Certification — Simplilearn, 2024
